

COOKIE POLICY

Information about our use of cookies

Our website www.thinkfortigers.org (the “**site**”) uses cookies to distinguish you from other users of the site. This helps us to provide you with a good experience when you browse the site and also allows us to improve the site. By continuing to use the site you agree that we may store and access cookies on your computer.

A cookie is a small file of letters and numbers that are stored on your browser or the hard drive of your computer. Cookies contain information that is transferred to your computer's hard drive.

We use the following cookies on the site:

- (a) **Strictly necessary cookies:** These are cookies that are required for the operation of the site. They include, for example, cookies that enable you to log into secure areas of the site.
- (b) **Analytical/performance cookies:** They allow us to recognise and count the number of visitors and to see how visitors move around the site when they are using it. This helps us to improve the way the site works, for example, by ensuring that users are finding what they are looking for easily.
- (c) **Functionality cookies:** These are used to recognise you when you return to the site. This enables us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of the site.

Except for essential cookies, all cookies on the site will expire after 2 years.

You can find more information about the individual cookies we use and the purposes for which we use them in the table below:

Cookie	Name	Purpose	More information
All the following are Google Analytics cookies.	_ga	Used to distinguish users.	https:// developers.google.co m/analytics/ devguides/collection/ analyticsjs/cookie- usage
	_gat	We use this to help with monitoring, and identifying areas of the site that can be improved.	
	__utma	Used to distinguish users and sessions. The cookie is created when the javascript library executes and no existing __utma cookies exists. The cookie is updated every time data is sent to Google Analytics.	
	__utmt	Used to determine the type of request, which is either an event, transaction, item, or custom variable.	
	__utmb	Used to determine new sessions/visits. The cookie is created when the javascript library executes and no existing __utmb cookies exists. The cookie is updated every time data is sent to Google Analytics.	
	__utmc	This cookie is used to determine whether the user is in a new session/visit.	
	__utmz	Stores the traffic source or campaign that explains how the user reached your site. The cookie is created when the javascript library executes and is updated every time data is sent to Google Analytics.	
	__utmv	Used to store visitor-level custom variable data.
